

Robert Reisig

I was raised in Billings, Montana where I participated in high school sports and American Legion baseball. I went to college at Whitman College in Walla Walla, Washington where I was a three-sport letterman and a member of Phi Delta Theta fraternity. I graduated with a BA in Mathematics.

I came to the Sacramento area the first time in 1974 and then returned to stay in 1985. During my career in retail management I lived in several California cities, was fortunate enough to serve on the Board of Directors of Head Start in Stockton, California, and be a member of the Chamber of Commerce in Tulare, California. Upon returning to Sacramento, I have worked in a variety of industries including more retail, sales, and real estate market evaluations. I received my MBA from UC Davis.

I am excited about the opportunity to serve Rio Linda and be part of the outstanding team at Rio Linda Elverta Community Water District.
